Subject: Wilcox Oil Refinery site map over aerial photo FYI
Date: Thursday, February 06, 2014 11:49:00 AM
Attachments: [Bristow_Property1.pdf](#)

I am trying to get some better maps of the Wilcox site, but in the meantime, here is one FYI.

- The purple is the Wilcox site 125 acres.
- The purple upper left area, brown color, is the location of one of the former refineries, is the brown area used by the Oklahoma Department of Transportation Becco Contractor as a staging area for construction of a bridge nearby.
- Far left, sort of a triangle with two buildings is the Church.
- The yellow blue area is the location of the other former refinery, a couple of tanks can be seen on the upper corner, and there is a lot of junk and debris in this property. (not necessarily refinery stuff).
- The central and eastern portions (to the right) is where some residents live. Other than a pond to the right, there isn't much to see from the photograph. This was the former location of the tank farm.
- South of the purple site area, you can see some of the Bristow Town streets and homes.

I am getting better pictures and will share with you.
